

leaf complex II may also be formed with SDH1-2, SDH2-2, SDH3-2, SDH7-2

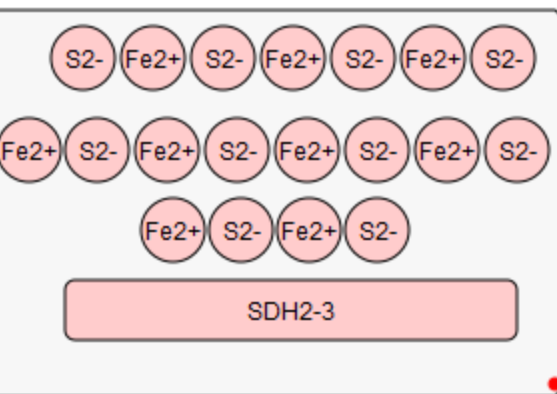

SDH1-2 is detected in leaf but gene disruption has no effect on growth and development

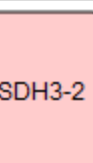

SDH2-2 protein is detected in leaf

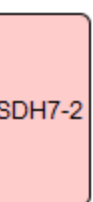

SDH2-3 is specifically expressed in seeds

SDH3-1 and SDH 3-2 have the same protein sequence

SDH7-1 and SDH7-2 are both detected in leaf

Mitochondrion inner membrane

Mitochondrion outer membrane

Plasma membrane
